Wasserman running smear campaign
Letter to the editor,

As readers of the Express News remember from the 4-12-08 edition, our state senator Alberta Darling has been the subject of a malicious whisper campaign. Her opponent Sheldon Wasserman and his Democrat colleagues were recently caught telling Madison lobbyists that Alberta isn't up to task of being our senator anymore because she is a breast cancer survivor. After the media broke the story about the disgusting campaign strategy being employed by Team Wasserman, Wasserman claimed he knew nothing about it.

The truth is Alberta Darling is healthy and doing a great job for us in the state senate! She is working hard to lower taxes, create jobs and reform health care.

Perhaps Sheldon Wasserman is mixed up in this smear campaign against Alberta because he doesn't want the voters to learn about his terrible voting record. He probably doesn't want us to know how he voted against the property tax freeze and against voter photo ID. I'm sure Sheldon Wasserman would rather not talk about his votes to provide health care benefits and drivers licenses to illegal aliens with your tax dollars.

If Sheldon Wasserman comes knocking on your door this campaign season, remember his voting record and remember his role in this shameful smear of a breast cancer survivor!

Roger E. Nelson
